

## Step-31: Sanctuary

The concept of Sanctuary, which is short for Trinary Sanctuary, is a place where people can live in true Freedom, meaning without Cost, and without having to commit Treason, meaning without Money, Law, and Religion since we all know that is the cause of all this Treason, and since you cannot get your Constitution back, it is time to create a new Country called Trinary Sanctuary, and the reason why I prefix it with Trinary, is so you will understand this a Trinary concept of Sanctuary, therefore you have Trinary Science that explains the Trinary Universe, so it is based on Facts and not Theory, based on Kepler, Newton, and Tesla, who said God is the Force of Gravity in all their Equations, as such, it is based on how the Torah defined God as All Light without Darkness, knowing what Light and Darkness means, and it is not Good or Evil, that was Satan trying to get you to believe that their Deity-God is God, knowing it is not the God that is All Light without Darkness found inside of all Atoms, proves Religion is about Satanic Money that the Church knows is Treason, knowing that is how they got you to use it, by getting People to become Sheep by taking the Mark of the Beast known as a Sheep like Ewe, who Buys & Sells Souls by the Kilowatt, so it is Trinary Militia's job to produce excess Energy, Air, Food and Water, and basic supplies for everyone for Free, to put a stop to the Buying & Selling of Souls, and to allow People a place where Crime is not permitted.

The concept of Trinary Sanctuary, is that it is based on Trinary Science, and the Trinary Universe, this is based on Trinity Science, but Sir Isaac Newton hated the teaching of Trinity with Jesus Christ and a Deity-God they call God to confuse you, so I renamed it to Trinary, but it still means the same thing, the 3 Logical State Changes found in all Atoms under an Electron Microscope, so it is based on facts, the reason I do not call it the Newtonian Universe, is because most do not understand it, and why most believe in Einstein's madness, plus I defined Trinary Atoms and Trinary Engines, so it is a new concept, and based on what everyone can prove is a fact without using a theory to explain it, so the foundation is based on Trinary Science, and designed and engineered with that Science, as a place designed as an Outpost, with Land owned only by Trinary Sanctuary, free of all Taxation, Laws, or Government interference, it is Land in a Circular shape with a Pyramid in the center of it, it has an air shaft that will need to reach a height where the differential in pressure from the bottom to the top, is sufficient enough to power all its machines using the vacuum it produces for free, at a constant rate, and it uses Lightning Networks to recharge a battery bank that can be used to power the World, so the World does not have to Buy & Sell Souls, and you build it using a network of what I call Rings, so you can have more than one type of Society, yet have them separated, you have to keep them separated.

Sanctuary means a Safe Place, and that is what it should be, and if Money were allowed, it would no longer be safe, ask all those in Prison for following Treasonous Laws if they feel Safe in Prison, and look around and all I see are Prisoners, because of how you define Freedom, which is Freedumb, the Criminals are in Charge enforcing Treason, nothing safe about that.

There are many different types of people, and they all come from backgrounds no one in Sanctuary would care to know about, so I would not bring your past into Sanctuary, I would suggest making new memories, knowing you are not committing Treason, and are not being Force to Commit Treason, which is even worse, because they are forcing all of US to be Accomplices to Treason, and that is a far worse crime than just the Treason alone, so you need to walk away from those Criminals and never look back, find a place they cannot take away, and build like there is no tomorrow, because soon there will be no tomorrow with people in it, and that is what is sad about the Human Race, those that know this is the End of Time, are building Underground Cities for the Rich & Famous Liars, you know this Game, it is called Monopoly, and this is World-Wide, so no one can say this is not true in their Country, if it uses Money, it is the same Game, so make no mistake about who the players are, and who are being played, the Church has a Game called Pass around the Pray Tray, and let Money solve all your problems, if they had to have truth in Advertising, they would have to tell you that they are now out of the closet gay pedophiles that want to get paid to Alter Boys like they did the Torah, you know this Game by now, more like the Wizard of Ozone, do not pay any attention to the man behind the curtains, because the Great and Powerful Wizard of Ozone, wants you to believe Treason is Legal, it must be since their Courts are Enforcing it, so this proves one thing, there are many types of people, but when it comes to Money, there is only one type of Criminal that Commits Treason, proving all those using it are guilty of Treason, so it is best to leave that past behind you, and move on, you will find no Justice in Courts Enforcing Treason.

Trinary Sanctuary is built to survive an Ice-Age, but is not meant to be built for the reason of survival, because that cannot be guaranteed, nor should you build out of fear of what might happen when the Sky Falls in 2027 or the End of Time in 2033, the future is unknown, and the future will remain unknown till after it happens, so never build it thinking this will ensure your survival should these events happen as I say they Might, with a very large percentage of chance, but I would be making that number up, so why bother, the fact is, do not even build it for yourself, build it for the Children, because the truth is, with only 6 years before the Sky Falls, knowing it will be harder to build after that event, if that 96% chance of impacting Earth turns out to be right, so there is not enough time to save everyone, in fact, not even enough time to save all the children, so this should be built only for Children that do not require Adult supervision, that will give the human race the greatest chance of survival, so you have to build it with these events in mind, but do not build it in fear of them, or thinking you will survive them if you do, only build them for those who can build a better future, those not guilty of Treason, or Money Junkies, and try to be fair in who you pick, they all must have an IQ above retarded, and you have to keep neurodiversity in mind, as well as equal in other aspects such as Nationality, and the color of their skin, so that no group of people are left out, and with any luck, these events will be survivable, and Trinary Sanctuary can continue to grow, and live in harmony with other nations who have Money, Law, and Religion, while staying separated from them, with no physical interactions with them.

Trinary Sanctuary only allows Trinary Militia, you are born a member, this is a closed Society, therefore needs to have strict duties, as a Militia Member, you have duties, these are not like Laws, they are moral duties, and those who cannot perform within the requirements of those duties will be banished, you are not allowed to Punish, nor imprison, that is not Freedom, and you must always allow freedom, if you cannot trust someone, they can be banished, this is right out of the Torah, as the duties in Paradise, you are not allowed to have any sexual contact with anyone you are not Married to, you can be banished for this, and for good reason, people are not Animals like Sheep, and that Sheep mentality is not allowed as a Trinary Militia Member, no one is allowed to marry unless they are of age, and they are not allowed to marry anyone within so many Generations, and sexual orientation is a personal choice, the concept is to form family units that can exist without any fighting, and most fighting is over money, sex, or religion, and why money, law, or religion is not allowed, and sex is only allowed between married couples, regardless of sexual orientation, you still must be married, and no premarital sex, that is how all this treason got started in the first place, people doing sexual favors, or having sex for money, none of that can be allowed in Trinary Sanctuary, Morality is the number one duty of all members, you never allow anyone to be abused, or mistreated, people have tasks to perform, and those tasks are just a job, and their free time needs to provide hobbies and entertainment that is not about Money, Law, or Religion, and must be built into Trinary Sanctuary, so no one can ever get bored, and it has to be geared towards children, as well as the Adults they will grow up to be.

I would recommend building the Pyramid on solid rock, with no soil under it, and no rivers running under the rock, and you want to ensure it stays that way, by drilling vertical shafts deep down into the rock, making elevator shafts, so you can access the rock at different levels, and build a system that can prevent water from flowing under it, so find a way to drill a horizontal tunnel you build like a train tunnel, and have drainage pipes used to take the water to safe location for run off water, this is very important for long term functionality, and the stability of the structure itself, and you want to put in a lot of shafts used to anchor it to the rock, so Glaciers cannot push them, so you have a lot of engineering to do, and lots of work before you can even start to build the Pyramid on top of it, and you want to build it all at once, putting down the outer perimeter of the Pyramid while building the center air shafts, and service and transport elevator shafts, you need to fill in the Pods as you build, so they can be used to hold up the shafts, in a way that the whole pyramid is just a maze of tunnels connecting all the Pods together in networks, so that you can have 3 main tunnels connecting all Pods, for safety reasons during a major Earthquake, so outside the Pods and Tunnels is solid concrete with reinforced steel, plated so it will not oxidize in time, maybe a zinc coating over an electroplating, what you are building needs to last thousands of years, so you have to build it without money in mind, the cost does not matter if you want to survive an Ice-Age, and why you cannot build it using money, people will cut corners to save a buck, and can be bribed to build it substandard to save more money, all because you can never trust anyone that works for Money, and why it is not allowed, and that is not a recommendation, some aspects of Trinary Sanctuary have to be set in stone, while others

like how you build it, is really up to those that build it, I just recommend building it to last a long time, and with the least amount of maintenance required in years to come.

If you want to save the Human Race, you will have to be realistic about how many you can save, given our timeline for building it, and it all comes down to how many people are willing to help, knowing they will not be living there, that is called Selfless-Sacrifice, and is a quality in many people, and why I believe this is the best way for the human race to survive, is to build something survivable, that can be maintained and continued to build using robotics, so that future generations can live there, and that requires this to be built very wide, and very tall, and you need to have access to raw material, and the equipment to refine it, this will be the largest project ever undertaken by the human race since the Great Pyramids were built over 3 million years ago, before the Earth last went through the Galactic Plane, according to the Torah, so we know how long they will last if built right, and this is a monumental undertaking, just the volume of concrete and steel required is phenomenal, and it all needs to be automated because at some point it will not be safe for humans to build it, so why start off that way, just start off building it using robotics from the start, and that way you have nothing to learn down the line when you have to use robots to build due to altitude above the base, you can safely build up to 33,333 feet, and could build it twice that tall if you can deal with all the risks involved with falling objects, and the weight limitation of the Pods on the bottom, it is clear the lower levels will need to be thicker than the top ones, so you need to engineer this from the ground up, setting those limits before starting to build, knowing how tall you can build, will set the perimeter of it, and all that area will set the limits to how many people can live there, and not only survive, but to thrive.

It is immoral to Force people to commit Treason by having their Judges, Lawyers, and Police Enforce Treason on people that want to be Loyal to their Constitution they took an Oath to Defend, therefore people should be allowed to create a Society that does not allow Treason, or any Crime, where Money, Law, and Religion is not allowed because it was the cause of the Treason, as such, Trinary Sanctuary is about building a new type of City, with housing, agriculture, farming, and manufacturing, where producing excess Power, Air, Food, Water, and basic supplies, to provide to others for Free, so they do not have to Buy & Sell Souls to survive on this Planet of Sinners, and Criminals who put themselves in Charge using Blackmail by the use of Weapons of Mass Destruction, and why Trinary Society can never allow this type of Criminal Activity to continue in Trinary Sanctuary, and why there are a few things ban in Trinary Sanctuary, Money, Law, Religion, and Weapons, these are things that make you a Target, you have to engineer your security to not require Weapons, you do not share Networks with outsiders, nor use theirs, you create new computers, and do not build them using Floating Point Units or FPU, instead use Arbitrary Point Units or APU, and write all your software, and do not share your code with the World, this is not Open Source, it is a Closed Society, and by Closed, I mean its doors are closed to all none Trinary Militia Members, we do not allow Viruses or Malware, and why we do not share code, and write it ourselves, we make our own Movies, we

have our own News, we make our own Food and Medicine, we have our own Education system, and this is how we do not allow the outside to infect Trinary Sanctuary.

To create an Advanced Society that does not allow crime, you cannot allow the Money, Laws, and Religion that were the cause of that Treason to be allowed into this Society, and why I call it a Trinary Society, that is ran by Trinary Militia that would never allow Crime, let alone Treason, the worse of all crimes, and instead of Laws you have tasks that have Technical Data, and Technical Orders that tell you how to do all the tasks, teaching people what they can do, instead of what they cannot do, and not set up to punish people, or make them feel bad, in a closed Society you have to ensure the happiness of as many as you can, without committing the worst crime in history, which is Treason, it is not like you can say, besides that, it is a good Country, that is retarded and you know it, there is never an excuse for committing Treason, and no excuse for Enforcing that Treason on an Nation, using Nuclear God Bombs as Blackmail to keep the Slaves in line, and why this Society must stay unarmed, and not require them to secure its facility, if they need to be Armed, they can make room for the Worlds Military, they are the only ones required to be Armed, and there is nothing wrong with this arrangement, you just ensure the War never comes into Trinary Sanctuary, and that it is always secured on the outside, so build the outside for the Military, and this will work out in the long run, I am Military, and still trust them more than the Governments they work for.

To understand Trinary Society, you must know that no one will ever agree on anything, that is an unwritten rule most humans follow, so you have to center everything around tasks that you have written Technical Data, and Technical Orders for, and have trained people how to do these tasks, training is the key to success, and making sure your Data and Orders are correct, Orders are used to tell you exactly how to do a task step by step, and since most tasks revolve around robotics, most tasks are going to be technical, and require training, there should be no hard labor tasks, the concept is to have robots do all the hard work, this is one Society that wants machines to take over and do all the work, so you have to create all the Technology you need for the future, because if these events happen as I say they will according to the Torah and the Greatest Wizards in History like Kepler, Newton, and Tesla, you will have to rely on those robots to do the work, because no one will be able to do it due to the working environment of an Ice-Age, as such, you need to focus on getting Manufacturing up, and Energy production, as well as all the Agriculture Pods you will require for Food, housing should be a major concern, so you will have a lot of work going on simultaneously, so you have to set up this Society such that it does not rely on what people can agree on, people do not need to agree on anything that is not related to safety, because all the important stuff just needs to get done, and everyone has to work to get it done, and not spend any time arguing over things no one will ever agree on.

The Torah said that in the End of Time the Wicked would not survive, and that means no one will survive since everyone who took the Mark of the Beast known as a Sheep like Ewe, who

Buy & Sell Souls by the Kilowatt are the Wicked, those Committing Treason are Wicked, those using Money are Wicked, it is real easy to understand that if Money is Treasonous, and Laws enforce that Treason and those enforcing that Treason are all Wicked, and why you do not ever allow Money, Law, or Religion into Trinary Sanctuary since those are things that make People Wicked, and why they are not allowed, and why the Torah said they would all die is simple, if I did not say anything, they all would die without even knowing why, that is how Wicked Money is, the fact Laws enforce that Treason is proof Laws are Wicked, as well as those enforcing those Laws you know are Treasonous, and why the Torah said all of the Wicked would die, digging their Graves planning on stabbing everyone in the back for Money, building Underground Tombs for the Rich & Famous Liars, and why no one knows about this, and no one is talking about this except for me in the Flesh, so maybe I do have a little of Jesus Bar Abbas in me after all, because like Sir Isaac Newton, I do not like the Wicked, and that is the Church and their Satanic members known as Sheep like Ewe, who Hunt down and Murder all the Witches & Wizards in History who tried to get the Wicked to understand it was Religious Sheep like Ewe who are Wicked, the Torah said Satan is a Liar that believes Satan's own Lies, and why Satan is one of them most Wicked of all beings, the Liar, the Treasonous Traders, the Insane.

Trinary Sanctuary is defined as a Safe Place with True Freedom, you are not allowed to commit Treason, nor Buy & Sell Souls, nor are you allowed to take the Mark of the Beast known as a Sheep like Ewe, no Money, Laws or Religion, Next Step 32, I will talk about an Age, and not just any Age, but the Last Age.
