

Step-30: Ice-Age

The Ice-Age is coming, what day it will be on, is unknown to anyone, but we know for a fact that one is overdue, just like this Polar Reversal, and I have made it clear that I believe the Ice-Age will start when our North Magnetic Pole crosses the Equator on 14 January 2033, and that is just over a decade away, and as our Sun heads deep into a Solar Minimum, it is clear that this is a real possibility, but even if it does not happen, it is just a matter of time before it does, so the way I look at this is simple, why not prepare for that Ice-Age now while there is still time, if it does not happen, there will be more time to work on it, if it does happen like I say, and no one builds Trinary Sanctuary believing their Underground Tombs will survive an event they did not engineer for, because 99.999% of all the people on this planet believe in the Science Fiction of Einstein, therefore have no idea what is going to happen, and what they should have engineered for, and why I would believe the Human Race is about to go Extinct, because those in Power believe their Underground Cities will survive, because they believe in Einstein as well, and are all insane, and want you to go along with all their insanity, knowing Money is Treason, and used to Buy & Sell Souls by the Kilowatt, it is clear everyone is going to die at the End of Time in 2033, if they survive the Sky Falling in 2027, regardless of when it will happen, it will happen.

Having spent most of my 60 years on this planet trying to figure out how to survive the End of Time, I know all the choices I would have to make, following the Underground Bunkers, I did not understand how anyone planned on surviving the Earth freezing, but that is Trinary Science, and not some Theory never proven in over a Century, this will be proven in just a decade, and I will be 72 in 2033 if I live that long, having Cancer, and bad kidneys, and a bad Colon, having had my Descending Colon removed, along with my Gallbladder, all I have is hope, but I gave up on any hope for the Human Race, they are proving they have no plans on surviving the End of Time, because they do not believe it will happen, so they are not going to even try to build something that might survive it, but I am sure none of them will survive, due to bad engineering, due to believing in unproven theories, thus they have no clue as to what is going to happen, so I have spent a lot of time looking at ways to fix their mistakes, but found none, they have made fundamental errors that cannot be fixed, and knowing that those that live underground or underwater, the Torah called the Ancient Ones, otherwise known as UFOs, are all leaving the planet, I would say that is the first sign that it is not possible to survive these event underground or underwater, so it is time to start moving off Earth, even the Torah said that Satan would be digging their Graves at the End of Time, so those who believe in the Torah, would not move underground knowing there are going to be known as Tombs in decades to come, but they also would not have taken the Mark of the Beast known as a Sheep like Ewe, or Buy & Sell Souls by the Kilowatt, so it is clear I might be the only one alive that believes in the Torah, and even knows about the Torah written before the 4th Century, because no one knows about Kepler, Newton, or Tesla, because they were lied to, just to get them to commit Treason, so one lie leads to another and soon your whole life is nothing but lies, so as I see it, you have very few options if you live on the surface of the Planet, and are not Rich or Famous, they want all of you to die, and why they are not telling you about their plans to let you die on the surface, and Sheep only do

what they are told, so there is no chance of any of them making any plans to survive, they will just sit at home and wait for the End of Time to roll around, to see if I was right or not, not caring either way since they made no plans to survive.

I believe in the Torah, and I believe in all of the Greatest Wizards in History, so I believe that Tycho Brahe, Johannes Kepler, Galilei Galileo, Sir Isaac Newton, Edmond Halley, Benjamin Franklin, and Nikola Tesla, and all of them believed an Ice-Age was coming, and using Trinary Science I can prove how this will happen, when our North Magnetic Pole crosses our Equator, and switches polarity, and NASA is not really speculating much about what will happen, but from what they have said, they believe it will be a slow change, and they could be right, just because every one of these Wizards did not believe that, is reason enough to question this event, and at least set a percentage of chance it vents our Atmosphere, and if you want to make a guess at how much it might vent, you can all try to narrow it down to something everyone can agree on, and keep in mind that our Magnetosphere cannot be both Positive and Negative at the same time, and we know for a fact all Electromagnetic Fields collapse when they reverse polarity, at the exact time they pass through ground, so we must all agree that this is just the physics of the event, if you believe you have the right to believe what you want, I award you the Darwin Award, and in case you are not familiar with it, those that die the stupidest ways gets one, and freezing to death on the surface of the planet because you want to believe this will not happen, is a good way to get one, and we have a whole planet to pass them out to, so think about this.

If the Torah and Wizards are right, the Earth will be frozen solid by the year 2103, and by that time, Ice Glaciers will be moving on land, as well as the Oceans, that are said to freeze solid, it makes me wonder if it was just frozen down so far no one could see the water, who knows now, but the thought is very disturbing, it did say it will freeze 6 feet deep in a matter of days, and at that rate, it could freeze hundreds of feet, and I believe where they pumped out Oil or the Blood of the Planet, under the Oceans, I believe it can freeze all the way to the Ocean floor, into the Earth under the Oceans, so I imagine this is going to be like living at the Poles for Hundreds of years, and we know what that is like, and our Atmosphere will be very thin, high in Carbon Dioxide or Co2, and low on Oxygen, and with all plant life in hibernation, it will take a long time to rebuild our Atmosphere, so I would think about this if you want to try to survive these events, and do not believe underground is even an option, and you would have to build to survive Ice Glacier movement, and why underground is a bad idea.

There are a few problems with living in an Ice-Age, besides freezing to death, there will be very little food to eat, and all the water is frozen, all plant life is dormant, animals that do not hibernate die off due to the lack of food, and Ice is a huge problem, it is everywhere, and it grows thicker with time, and begins to move as a frozen river of ice known as Glaciers, making life on the surface of the planet inhospitable, and all current cities and houses will not stand up to an Ice-Age, because they were never engineered to survive an Ice-Age.

If you build underground you have the issue with getting Air, and this is a huge issue, and none of the underground bunkers I have seen could survive this one issue, because they were not designed to, why is simple, no one believes this will happen, and why is very simple, “Simple Minds”, those that believe in unproven Theories are Insane, those that believe a Theory is a way of Explaining Facts are called Idiots, those that commit Treason are called Criminals, and what Americans are, and these are the people building these underground tunnels, and cities, knowing their Science has never been proven, their building methods might be up to code, but just like their Electrical system being wired wrong, having Common tied to Ground, these codes cannot be used to build Trinary Sanctuary, you will have to come up with better Standards, and based on Facts, and not Theory, because if you explain a Fact using a Theory, you only have a Theory, and not a Fact, and why I would say underground has a 90% chance of failure due to many factors, the 10% chance of success is based on one part of all the Underground Cities I am aware of, many have vaults that will survive, only people cannot survive in the vaults, the facts are simple, they use steel and concrete to build underground, knowing it could not hold up the weight, only keep the dirt and water from pouring in, and this is the problem, once the Earth freezes down to that depth, things change fast, the metal in the concrete becomes brittle, and the moisture in the Concrete will freeze and crack, thus it will fail in time, and this is because they were not engineered for an Ice-Age, you would build Submarine Pods, or Spheres that are hardened and very thick, like their vaults, so that they could withstand the weight above them, and maybe you could retrofit some, Air will still be a factor, and Ice Glaciers will also be a factor, making underground for along periods in facilities that were not engineered for an Ice-Age, or the Earth Super-Cooling, and all the Greatest Wizards in History believed this was going to happen, and Trinary Science proves it will, so I do not have any doubts, I may not know how this will all unfold, but people living on the surface of the planet is not going to happen in an Ice-Age, maybe some will find a way to survive, but for how long, we are talking about hundreds or thousands of years, if the Ocean freezes down hundreds of feet, possibly to the Ocean floor, and into the Earth under it, all because of the lack of Oil, or the Blood of this Planet, it is a given that all current so called Bunkers, have only a 10% chance of surviving the first day, and if they survive that, they are not designed to live there for hundreds of years let alone thousands of years, so who are we kidding, the human race is about to go extinct all because it is normal to be retarded, and that is all everyone is, and you know this can be proven to be the truth about everyone, considering I am the only one since Tesla to say these things, because since him only retarded people existed on this planet, and it only takes an IQ above retarded to understand Trinary Science, yet I am the only one who believes it at this point in time, among the living, which turn out to be the living brain-dead, nothing but mindless zombies, everyone is a Criminal that knows they are committing Treason, so they do not deserve to survive the Ice-Age, and why God made you so stupid you would not be able to, Simple Minds, that believe nothing will happen to Earth for Millions of years, that is what Fools believe, those with an IQ over retarded can understand what I wrote in all these Steps, I write things over and over in different ways, hoping that one of them, will sink in, and you will research this, and prove it to yourself, building it not for yourself, personally I have no plans on surviving Cancer, having it cut out till there is nothing left of me, is not really a plan, all my plans are for my Grandchildren, and theirs.

As a race, humans need to decide if they want to commit Treason till the day they die, or move on to a new way of Living without committing Crimes, and those who are fine with Treason, are Satan, the reason they do not know they are Satan, is because Satan is a Liar, and only Satan believes Satan's own Lies, Treason is the Worse of all Crimes punishable by Death, so everyone in this World has a Death Sentence, like a noose of a rope around their neck, they are all Treasonous Traders, even those not living in the United States since they took over the World thanks to Religion, and those Religious Sheep, this Treason is the Churches doing, that is how Satan does business, they hunt down and murder all the Witches & Wizards in History who tried to tell the Stupid Sheep who took the Mark of the Beast known as a Sheep like Ewe, who Buy & Sell Souls by the Kilowatt, but none of them will listen, because Satan owns their Souls, so there is no hope for this Generation, so if you want to build Trinary Sanctuary, build it for Children.

When most people think about an Ice-Age, they think of Movies about Cave people, but they also envision it as much warmer, and with more life, the truth is there are no stories in the Torah about any humans surviving on the surface of the planet, it said they lived in Paradise, which was placed miles below the Great Pyramids, Moses was the one who destroyed it according to the Torah, only Satanic People would Worship Moses, he was the worst type of person ever born, and goes by many names, Satan or the Devil, or D`Evil, Rape, Pillage, and Plunder is all you need to know about Moses, he invented Religion with a Burning Bush, and there are many around the World would like to see Bush talk while Burning, everyone that is Religious, took the Mark of the Beast known as a Sheep like Ewe, proving they are all Satanic, and why the use Treasonous Money, and why they do not know about the coming Ice-Age, or even the Sky Falling, all because those building underground cities, the Torah described as digging their Graves, believe their Bunkers will survive, this is called insanity, much like those who built the Titanic, thinking it was unsinkable, if they did not try to avoid hitting it, they could have survived a collision with it, but not being side swiped, all that Ice that has melted at the Poles has made the Oceans separate into layers with less salt, this will freeze very fast when the Earth freezes, so all the Ships in the Ocean will be crushed in a matter of days, and submarines will not be able to surface, so the real event will be nothing like any movie I have ever seen.

The way you view your Reality, is based on your Science, because that is how you view things as working, and currently that is unproven and denounced theories of Einstein, who is retarded to anyone with an IQ like mine, mine is just a matter of record, more than 20 points higher than Einstein, people do not know how ironic is when people ask me if I am as intelligent as Einstein, calling me Einstein is calling me Retarded, and why I have to invent my Science, by taking Trinity Science and translating that into Trinary Science, where Trinary is the 3 Logical State Changes found in all Atoms under an Electron Microscope, as such, it is just another name for Light, and the Torah said God is All Light without Darkness, and we know that Darkness is the Rainbow of Colors found in the White Light of the Sun, my reality is based on Light being Static, and most people cannot Imagine a Reality where Light is Static.

To understand Static Light, when I push the button on a Flashlight, the Light does not move, it is the Universe that moves outward from the center of all Atoms in the Universe, because they all have the Light of God inside them, this is called Physics, and my PhD is in the Physics of the Trinary Universe, my Dissertation is called "The Principles of the Trinary Universe", and few people understand that you cannot see the difference between Static Light, and Light they believe is Dynamic since it never was, no one knows what that would look like, but I would think Dynamic, but from Einstein's Theory it is easy to understand, first you have to remove God from all his Alternate Universes, in Alternate Realities, so you have no Light without Darkness, thus you have no Light or Darkness, you have nothing since everything is made of Atoms with Light and Darkness inside them, so the Trinary Universe is the Opposite of Einstein's Madness, if the Light coming out of a Flashlight was Dynamic, you could use it as a Light Propulsion Engine, if Centrifugal Force had anything to do with Gravity, or Iron in the Earth had anything to do with our Magnetosphere, knowing it is decaying in strength at a constant rate of 5% per Century, and if any of Einstein's Theories were true, the Earth would have to be Slowing down, and that is not happening, so you know that is all BS Science, and why no one has any concept of an Ice-Age, they only know about Retarded Science written by Retarded people like Einstein.

If you want to survive an Ice-Age, you will need a Plan, and Digging Graves is not the Right Plan since no one will be left, so you have the Right-side, the Left-side, and you have Suicide, so pick what side you want to be on, as for me, being born Left-Handed, and forced to be Right-Handed, I can tell you that to be Right, you are force-fed a lot of lies, being Right about anything is one of them, so I would rather be Left than to be Right, and if I am Right, none of you will be Left, so pick the side survivable.

I would rather build Pods or Spheres designed to carry a load of steel-reinforced concrete than to build underground, you will need to build a Sphere inside another Sphere, this makes leveling easier, and gives you isolation from thermal, sound, and vibration, you can build very densely packed units, and yet, have a total separation between them, and you can build very high, thus make a huge footprint to stand up to Glacier movement, and why a Pyramid Shape works the best, so you need to build Trinary Sanctuary to survive an Ice-Age, and not underground death traps, so think about what side you want to be on when the Sky Falls in 2027, or the End of Time in 2033 comes around, that is only one more Decade from the time I wrote this.

An Ice-Age has many parts you need to understand, if the Earth is Super-Cooled as I predict it will be, you have another component that is the most important, and if I am right about Oil being the Blood of this Planet, and that it might freeze to death if it does not have enough, you might think about stopping all the Oil Wells and capping them all off, you will need to have an Alternative source of Energy, and do away with all Engines that run on False Fuel since we know the Planet is producing that and not dead animals, that was a lie, or they would be using them to make more oil, so you decide what Science you want to believe in.

The Science you use will be the difference between being alive or being dead in just one decade, and if that does not scare you, you are not alive, you are a brain-dead zombie, even if you do not want to live, can you honestly say you are willing to allow everyone to die on the surface of the Planet without telling them, that is just immoral, but what do you expect from Treasonous Criminals, they are Criminals, not Presidents, Congress, Senators, Lawyers, Judges or Police, they are nothing but Criminals and they are enforcing Treason on a Nation of Sheep, and why they need you to believe in Einstein, so they can remove the Light of God.

Regardless of when the Ice-Age comes, the current situations in most countries, is that their whole population is guilty of committing Treason daily, and those same Countries are building underground cities known as death traps for the Rich & Famous, who believe they will survive, and why they are not talking about the Sky Falling in 2027 or End of Time in 2033, and why in the Next Step 31, where I will talk about Trinary Sanctuary, it is the best hope for an Advanced Society, that does not commit Treason daily, being lied to around the clock, making their Reality, Unreal, making it an Alternate Reality, one that is about to go into an Ice-Age.
